## TOXOLIN SUPER®

READY-TO-USE LIQUID INSECTICIDE BASED ON  
NATURAL PYRETHRUM

**TARGET:**

- CRAWLING INSECTS
- FLYING INSECTS

### TECHNICAL DETAILS

Registration to the Italian Ministry of Health N. 11068

Composition	
Pyrethrum Extract 25%	1,2 %
Pure Tetramethrin	0,6 %
Pure Piperonyl Butoxide	5,0 %

### CHARACTERISTICS:

Toxolin Super is a liquid insecticide ready to use based on Natural Pyrethrum. It is particularly suited for disinfecting areas such as hotels, restaurant, hospitals, food industries, deposits and farm stalls.

Toxolin Super is effective against all type of crawling and flying insects thanks to its high concentration of Natural Pyrethrum. This substance is odourless, non flammable and does not leave stains on any surface.

Thanks to the high content of Natural Pyrethrum, the product acts by blocking the nervous system of insects in a rapid and fulminant way, avoiding possible addictions to the active ingredient.

Mineral oil (food grade) used as a solvent makes it particularly suitable for nebulization, since the insecticide particles remain suspended in the air for a long time.

### USE

TOXOLIN SUPER can be applied with every kind of nebulizer: electric or thermo-nebulizers. For the treatments in the air is sufficient 1 liter of products for 1500 m<sup>3</sup>.

For the treatments on surfaces distribute the product nebulizing it with an electric nebulizer or hand nebulizer; 1 liter of product every 50 m<sup>2</sup>.

### WARNINGS:

Keep the product away from animals - Do not contaminate food during use, drinks or containers used to contain food - Avoid to spray the product into eyes, avoid to breathe it - In case of contact with skin wash immediately with water and soap - If the product is used in a place where you are staying long or in the bedrooms, ventilate the room thoroughly again - Do not use in agriculture.

### NOTE

Read the label carefully before use.
